SCROFTLA OF LUNGS RELIEVED.

I am now forty-nine years old and have suffered for the last lifteen years with a lung trouble. Several members of the family on my mother's side of the house had died with consumption, and the doctors were all agreed in their opinion that I had communition also. I had all the distressing symptoms of that terrible disease, I have spent thousands of dollars to arrest the march of this disease; I have employed all of the usual methods, not only in my own case, but in the treatment of other members of my family but temporary renef was all that I obtained I was until for any maximal short for several years. By chance I came into possession of a prampalet on 'Blood and Skin Diseases,' from the other of swift specific Company. At-

chance I came into possession of a parapheet on "Blood and Skin Disenses," from the office of Swift Specific Company, Atlanta, Ga. A friend recommended the use of Swift's Specific claiming that he had been greatly benefited by its use in some of Swift's Specific claiming that he had been greatly benefited by its use in some line; troubles, I recolved to try it. About four years ago I commenced to take S. S. S. according too directions. I found it an invigarating toole and have used about fifty hottles. The results are most remarkable. My cough has left me, my strength has returned, and I weing skry pounds mote than I ever did in my life. It has been three years since I stopped the need of the medicine, that have had no return of the disease, and there are no rains or weakness fell in my lines. I do the hardest kind of mechanical work and feel as ved in S. I ever fell since I was a key. These, I know are wondorful stalements to make but I am honest when I sa that twee my existence and health, looday to swift's Specific. It is the only medicine that brought he any permanent relief ide not say that Swift's Specific will do this in every case, but most positively affirm that It has done this much for me and I would be recreated to the duty I owe to sufferinc humanity if I failed to bear this vonderful medicine. I am well known in the city of Montgomery, and I can refer to the best citizens in the city. T. J. HOLT. Élonycomert, Al.A. June 15, 1885.

DAVID PETERSON REPORTED.

The Evidence Conflicting, He is Admonished and Discharged.

A colored man named David Peterson, who keeps a hotel and bar-room at 1708 east Franklin street, was before the Police Court yesterday morning charged with selling liquor on Sunday, August 8th. On Monday Isaiah Thomlin (colored) was before the court charged with being drunk on Sunday, and when asked where he got his liquor he said he procured it at Peterson's. Justice Ryall thereupon issued a summons for Peterson, returnable vesterday, to show cause, if any be could, why a fine of \$500 should not be imposed upon him for violating the city ordinance by selling liquor on Sunday.

When the case was called yesterday Thomlin said that on Sunday he and his triend Eugene Monroe went to NOTICE .- Don't fail to have the Peterson's and got dinner. After getting dinner and paying for it the witness asked for a drink. Peterson told him to wait, and in a few minutes a glass of liquor was brought him, for which he paid ten cents. OUR BUILDERS ARE AT WORK

Peterson's bar-room is in the basement, and his dming-room is back of the parlor, which is directly over the

dinner with Thomlin at Peterson's last Sunday, but saw no liquor sold. He had a bottle of liquor in his pocket which he bought Saturday night, out of which he gave Thomlin, who was very drunk, a drink.

Peterson said that these two men were at his house Sunday and got dinner, but he neither gave nor sold any liouor to either of them. He had a large number of excursionists at his house that day, but did not let any of

them have anything to driv's. Justice Ryall, in deciding the case, said that selling liquor in the parlors and dining-rooms on Sunday was as culpuble a practice as keeping bar-rooms open, and that he was confident that such a practice is largely indulged in. He was well satisfied in his own mind that Peterson sold the liquor; yet as there was conflict in the testimony he would have to give the accused the benefit of the doubt, and accordingly dismissed the case. He told Peterson, however, that if he was ever before the court on this charge again and there was as strong evidence against him the law would be strictly enforced.

THE PRIMARY PLAN.

Mr. Curtis, from the special committee appointed to report a plan for electing-delegates to the Congressional Convention, submitted the following:

At a meeting of the committee to whom was referred by the City Committee the duty of recommending a plan for the appointment of city delegates to the Congressional Convention to be held in the city of Richmond on September 2d, there being only four members present, and there being an equal division of sentiment it was agreed to present two reports, and the undersigned respectively present the following recommendations:

We recommend that a primary election for delegates be held. We recommend further that each candidate for Congress be voted for directly, and that each candidate be allowed to nominate a number of delegates in propor-tion to the number of votes he shall receive at said primary election. Thus : The city is entitled to 38 delegates. and, supposing 3,800 votes are cast at the primary election, then each 100 votes shall be entitled to I delegate, so that if " A " receives 500 votes in the whole city he shall appoint 5 delegates ; if "B" receives 1,000 votes, then he shall appoint 10 delegates, and so on for more or less votes, as the case may be. If "C." receives only 100 votes, then he shall be entitled to nominate one delegate. When fractions of between fifty and a hundred votes are concerned then these Thus, if "B" has 450 or 475 votes, he shall have four and one-half delegates. but, as a delegate cannot be personally divided, his four delegates shall cast four and one half votes in the Convention. If by this means more than thirty-eight delegates are appointed then the largest fraction of a hundred shall have the fractional candidate until the full number of delegates is selected. No one can fairly object to a primary election of this character, for by it every man will be represented, whether he lives in Marshall or Clay Ward. If any one objects to such a primary election be would not be convinced more than an average of 300 votes can

be gathered in each of the six wards. the "primary" not less than 4,500 to 5,000 voters will probably give expression to their preferences. Ward meetings can be packed and have been packed, and we have no assurance | The Chesterie they will not be packed again. In a primary election packing is impossible, for the voters have from sunrise to sunset in which to cast their votes. In ward-meetings fraudulent ballots can be and have been cast, and we have no rea-

son to believe they will never be cast In ward meetings the cry of fraud can be and has been perfectly justly raised, but it cannot be in a "primary election." where each voter must be mless he has been registered. the light of experience and of fairness before us, we unbesitatingly recommend a "primary election" as de-

acribed above. Respectfully submitted. JOHN A. CURTIS, LEWIS H. BLAIR.

IN FAVOR OF WARD MEETINGS. Mesurs. O'Bannon and Wilde presented another report as follows: To the City Democratic Committee:

Gentlemen,-The undersigned mem ers of the committee appointed at the ast meeting of your committee to report a plan for electing delegates to the Congressional Convention, to nominate successor to the Hon. George D. lise to represent the Third congressional district of Virginia in the Fiftieth Congress, beg leave to report the fol-

1. That meetings be held in the sev eral wards of this city on the night of Friday, August 20th, to be called to order at 8 c'clock. 2. That the ward superintendents be

harged with the duty of selecting suitable plans for the meetings. 3. That the manner of voting shall be by ballot (each voter endorsing his ame on the back of his ballot), and for

delegates, and not the candidates for nomination by the Congressional Con-

4. The ballots shall be counted by ellers appointed by the chairman of the meeting. 5. The persons equal to the number

delegates apportioned to the ward ecciving the highest number of votes cast shall be declared the representaives from said ward in the Congres sional Convention.

6. That the chairman of the meeting n each ward shall certify the names of the delegates selected by his ward to the superintendent of his ward, who Joseph Martin with a rock. shall return the same to the Democratic City Committee, and the secretary of said committee shall furnish each of them with a certificate of his election signed by the superintendent and secretary of the Democratic City Committee

O'Bannon and Wilde:

That the manner of voting shall be by secret ballot. Every ballot must have the full number, and no more, of the delegates to which the ward is on- They Decide to Take No Further Actitled. The voter's name and residence shall be called out, and a record made of the same; and the number of ballots shall conform to the number of names recorded. The meeting shall remain in session until the business of cil Committee on Grounds and Buildthe meeting is concluded. Every person must be a registered voter in the ward in which he wishes to cast his ballot.

Several minor amendments looking to the perfection of this plan were adopted, and an independent section was added allowing each delegate to appoint his own alternate. A proposition was made and rejected

that the candidates and not delegates be voted for in the meetings. From the discussion it is the sense of

the committee that each delegate shall go to the Convention unpledged and uninstructed. The strongest argument adduced in aver of the adeption of the ward-meeting plan was that it would tend to har-

monize party differences, and that the workingmen might have a good opportunity to vote. THE OFFICE-HOLDERS.
